

# Sartaj\_Checkout Module explanation

**Path:** Magento\_root/app/code/Sartaj/Checkout

**Function Name:** app/code/Sartaj/Checkout/Model/Total/Fee.php ( main logic ) Method name **collect()**

**Code snippet:** Not completely

**Logic explanation:** In this method I added the main logic of the quote collection manipulation. Here I added code to add an extra fee to the customer with input on the payment page, Which you asked for in your requirement.
